Wellard/CLAAS/Yamaha riders have been hard at work over the last two week-ends honing their skills and promoting themselves across W.A.

With the race season fast approaching the team knows how important it is to do pre season events to be ready for the opening rounds as well as any special promotions for our advertising partners.

Young gun Kyle Webster recently made the six hour drive to Kalgoorlie in the eastern Goldfields to contest the Golden Wheel Classic one of the states richest meetings for the year.

Riding in the MX2 as well as MX1 classes Kyle was able to come home with a reasonable share of the purse after winning the MX2 class aboard his YZ250F and bringing home his YZ450F in third for the MX1 division.

“My Fox suspension was just awesome and got me three holeshots that really set me up for the win in the 250’s. I have been doing a lot of training lately as well so my fitness is pretty good which helped in the 450 races as well” Kyle added.

On the same weekend back in Perth Kyle’s thirteen year old team mate Liam Whisler turned on a powerful display of riding at Summer Cross after stepping up to the 250F division this year.

Whisler showed the field a clean pair of heals in every race and has put everyone on notice that he is after that number one plate this year.

“My YZ250F was just a rocket and I need to thank Darren Thompson from Yamaha Australia for the great job he did setting up the bike for me and I can’t wait for the season to get underway” Whisler commented.

As well as their racing commitments all Wellard/CLAAS/Yamaha riders attend many demonstration rides and displays throughout the year for our advertising partners. Last weekend saw the team three hours south of Perth at Wagin for one of the states biggest agricultural shows.

Both junior and senior riders attended as part of the Wellard and CLAAS display in Wagin. Their Yamaha race bikes were on display throughout the day and the riders handed out team posters and stickers whilst chatting with the many onlookers.

“The synergy of Wellard, CLAAS and Yamaha works well at these type of displays as most farmers have siblings who either ride or have bikes on the farm. By thinking outside the box we cover farming, machinery and motorcycles in one display adding a new dimension to the traditional agricultural show” said Peter Strickland Team Manager.
